

March 27, 2023

Dear WPS Families,

The School Committee continues to offer opportunities for residents to share their input on the Westwood Public Schools with members of the School Committee and the District Administration in a roundtable forum. There will be two opportunities in April.

The April sessions are an opportunity to talk with School Committee members and District leaders about the results of the equity audit that the District recently completed. We will start with that topic and then open the conversation up to other topics as time allows.

The sessions will be held on **Tuesday, April 11th from 9:00-10:30 am** and **Thursday, April 27th from 6:30-8:00 pm**. Both meetings will take place in the Professional Development Room in the District Administration Office, located on the campus of Westwood High School. You may stop in at any time during the session and join the discussion with other members of the community. School Committee members Amanda Phillips and will be joined by several district leaders, including Superintendent Emily Parks and Director of Equity, Integration and Community Partnerships, Lateefah Franck.

If you would like to participate in either forum, please register using this [google form](#).

Sincerely,

Amanda Phillips

Dori Parmelee
