- High School Enrollment: Peaked in FY'19 and started a projected, gradual decline in FY'21. Staffing cuts were made in FY'21. The impact of such cuts was analyzed and were deemed sustainable.

As staff has been cut at the secondary levels, the FTEs have been reallocated to elementary to support enrollment numbers and class sizes.

Anticipated Elementary Enrollment

A chart showing anticipated elementary enrollment was shown. The numbers for kindergarten students reflect children who are currently "visible" in Town census data. The numbers will likely increase. The budget proposal plans for such a scenario. It also allows for an effective response to spring/summer enrollments. Staff allocations to the elementary schools will be made late spring after kindergarten registration.

Student Needs and Strategic Priorities

The FY'23 budget continues robust funding in curriculum and instruction and about stabilization and long-term recovery.

Second Reading of Revised Policy EBCFA – Face Masks

The Committee held a second read of a revised Face Masks policy. As part of this reading, Superintendent Parks was asked to present data from the district's COVID-19 Monitoring and Response Team.

A chart showing Westwood's case count, percent positivity, and average daily incidence rate was shown. A chart showing the district's weekly COVID cases for the current school was also presented.

Superintendent Parks then shared a chart of cases by school and student vaccination rates.

Some challenges associated with the COVID-19 uptick include:

- Number of staff absences
- Number of students absent while sick
- Contact tracing volume

The district is sponsoring vaccine booster clinics for people ages 12+ in January, February, and March.

The Committee asked Superintendent Parks to inquire about running an additional vaccine clinic and to post student vaccination data on the district's COVID-19 dashboard.

COVID-19 Medical Advisory Group Update

Anthony Mullin reported that the group met yesterday. The Superintendent and the School Committee are in receipt of a letter from the Town's Board of Health Director, Jared Orsini, who "recommends that the School Committee keep the face covering policy in place until the Omicron surge has abated and case counts decrease to their pre-Omicron levels."

Based upon the letter from the Board of Health, and a mask mandate that is currently in place for the Town's municipal buildings, and a surge in positive cases, the Committee chose not to waive the third reading of the policy. The revision will be discussed again at next month's meeting.

Anthony Mullin recommended that a clause referencing having received an exemption be included in the policy. The Committee agreed. He further recommended that a metric be determined the next meeting in order to off-board from the face mask policy. The Committee agreed to that as well.
