

Understanding Multiplication and Division Across the Grades

*Understanding the relationship between multiplication and
division in Grades 3 through 5*

held at: Sheehan School
Wednesday, October 21, 2015

6:30 – 8:30 p.m.

- ❖ Learn about how your child is experiencing multiplication and division at school.
- ❖ Try some hands-on activities! And take some home to use with your child.
- ❖ Examine strategies that your child may be using to solve problems and master multiplication and division facts.
- ❖ Consider ways you can support your child's developing understanding of multiplication and division.

Please let us know if you plan to attend. Return this form to your child's teacher. Thank you!

I plan to attend the Math Workshop on Wednesday, October 21 from 6:30 – 8:30 p.m.

Parent's name:

School:

Name and grade level of child(ren):

TEACHERS: Please put in Math Specialist's mailbox.
