

Family Engagement Survey 2017-2018

Each year the Massachusetts Department of Elementary and Secondary Education (ESE) asks parents from select school districts to participate in a survey to measure how well schools are promoting Family Engagement as a way to improve services and results for children with disabilities. It's your district's turn this year.

Research shows that schools that are good partners and engage families in education have better outcomes for the students they serve. Your feedback on the Parent Survey will allow us to learn how effectively schools partner with parents.

Please take a moment to respond to all items to let us know about the efforts made by your child's school to help you feel welcome as a partner in your child's education.
