# WESTWOOD PUBLIC SCHOOLS 

Honoring Tradition, Inspiring Excellence, Shaping the Future

Lemma Jn-baptiste
Director of Finance \& Operations

To: Tim Piwowar, Superintendent
Date: October 12, 2023
Subject: Operating Budget Report for period ending September 30, 2023

The table below provides a view of the spend rates in FY' 24 vs. FY' 23 at the end of Q1.

| Expense Category | FY'24 Committed at Q1 | FY'23 Committed at Q1 |
| :--- | :---: | :---: |
| Professional Salaries | $9.5 \%$ | $13.2 \%$ |
| Clerical Salaries | $21.0 \%$ | $13.5 \%$ |
| Other Salaries | $15.0 \%$ | $16.7 \%$ |
| Contracted Services | $77.9 \%$ | $89.6 \%$ |
| Supplies | $22.9 \%$ | $27.5 \%$ |
| Other Expenses | $84.8 \%$ | $99.6 \%$ |
| Overall | $\mathbf{2 0 . 6 \%}$ | $\mathbf{2 3 . 8 \%}$ |

At the end of the first quarter, the operating budget is in a balanced position overall.

## Salary Accounts

This year, due to the calendar year, we have only issued two paychecks to teachers, whereas last year at the end of the first quarter we had issued three paychecks. This has a substantial impact on our salary lines since professional salaries are approximately $80 \%$ of all budgeted salaries and $65 \%$ of the entire budget.

While clerical salaries were underspent last year due to vacancies, we are projected to be on budget in clerical salaries this year. We needed to hire a General Education aide when we opened a Kindergarten class at the Martha Jones School. Otherwise, we appropriately planned for instructional positions and other salaries. However, we continue to encounter challenges in hiring and retaining staff due to labor market impacts, particularly in support positions (aides, ABA's, food service, and substitutes).

## Non-Salary Accounts

Looking overall at our non-salary expense lines, we are within budget and spending at an appropriate pace.

The Contracted Services category is where we budget for contracted instructional support services as well as professional development providers and transportation vendors. Here, Student Services is slightly over budget ( $8 \%$ this year) but much less so than in the past (last year, it was
$112 \%$ over budget in the first quarter). We are carrying two contracted vendors in this line to address short-term student needs, but the Student Services team has dramatically reduced our reliance on vendors to fill vacancies by making an aggressive effort to fill positions. Last year we had 9 contracted ABA's at a cost of $64-70 \mathrm{~K}$ each that were charging this line.

In transportation, we believed that we entered the year with an appropriate allocation for Special Education transportation. We currently anticipate only about 16 K in unbudgeted costs from indistrict and out-of-district transportation. However, we contracted for two yellow buses for ESY, which put our summer transportation lines over budget by 22 K . This month, we will be discussing whether we need to address transportation needs in the same way next summer.

In the area of Other Expenses, our tuition is on budget. We have seen a shift in placements, as we do every year. Our day and residential lines are over budget by nearly 200 K , but our collaborative tuition is under budget by 215 K (the report shows 350 K , but there is a 120 K expense that will be posted this week).

From a risk standpoint, we continue to anticipate volatility in our Special Education costs due to the services required. In addition, we are welcoming new students with educational and transportation needs that are not yet fully understood.

In Facilities, we have had a particularly busy summer attending to building needs and much of our operating budget funds are committed at this point. We have encumbered funds for all our "on call" service contracts, such as the HVAC, plumbing, carpentry, and electrical. While we continue to maintain our buildings and prepare for the heating season, we will now shift our focus to planning for next year's capital projects.

## Summary

While our overall spending rate is lower than last year, at $20.6 \%$ as opposed to $23.8 \%$, this nearly $\$ 2 \mathrm{M}$ gap is explained by the timing of paychecks, and the remainder is attributable to normal variation in the rate at which we encumber non-salary funds. From a fiscal standpoint, we are currently operating in line with budget.
